

## Create a Safe Environment with SafetyBuilder

*Use Best-in-Class Safety Standards to  
Build a Safety Program with  
SafetyBuilder, a ProposalBuilder Feature*

# ProposalBuilder™

Create a safe environment for your employees with SafetyBuilder and the updated ABM Franchising Group Safety Site!

In 2017, ABM Franchising Group added several safety-related items to the Safety Site to enhance your safety presence. It features more than 1,000 safety data sheets with OSHA-approved safety standards and practices, training materials and up-to-date information on safety initiatives.

Using items from the ABM Franchising Group Safety Site, SafetyBuilder was introduced during the 2018 Continuing Education Conference and is now available for all ProposalBuilder users. It is a new tool, built into ProposalBuilder, to develop up-to-date, customized safety manuals using best-in-practice safety standards to meet your franchise's needs.

ProposalBuilder users can customize the manuals to include information about the franchise, including logos, safety messages and incident reporting structures. Users can also add other OSHA-required programs relating specifically to the scope of work they provide their customers. With this feature, safety manuals can be developed directly for the franchisee's business, and exclude programs that do not apply to your business.

SafetyBuilder is available to all ProposalBuilder users and provides a basic safety manual for franchises.

The materials and information available in SafetyBuilder will be supplemented and updated on an ongoing basis to keep your franchise ahead of the safety curve!

### Accessing SafetyBuilder

All existing ProposalBuilder users with Admin or General Manager credentials will have access to SafetyBuilder.

To access SafetyBuilder:

- Log into ProposalBuilder
- Click the Work Group icon, which will open a drop-down menu, and select SafetyBuilder
- Select the Core Manual and fill out the customization form
- Once the Core Manual is customized, browse SafetyBuilder's safety data sheets to customize your safety manual

If you are having difficulty accessing SafetyBuilder in the ProposalBuilder platform, contact the ABM Franchising Group Support Team at [bus.sys.support@abm.com](mailto:bus.sys.support@abm.com) or 724.873.2977.

ABM Franchising Group is currently offering a special for new ProposalBuilder users. Read more about it [here](#)!

For more information, contact your AVP. If you're ready to start *Creating Opportunities* with ProposalBuilder, [register here](#).
