

ABM Franchising Group Safety Site

ABM Franchising Group's Safety Site: Keeping Safety on the Forefront

ABM Franchising Group is putting an emphasis on safety through the new [ABM Franchising Group Safety Site](#), which provides Linc Service and TEGG franchises with courses and training materials, articles and up-to-date information on safety initiatives.

ThinkSafe is a program to highlight and promote safety initiatives. It aims to make us think about safety every day and encourages you to think about what could cause an accident, and what you could do to prevent accidents.

ThinkSafe introduces a three-tiered way of thinking about safety by focusing on people, materials and the environment.

- **People:** Creating an injury-free work environment for employees, clients and the public.
- **Materials:** Preventing incidents through the proper use of tools, equipment and supplies.
- **Environment:** Recognizing hazards that impact our workplace and the planet.

The Safety Site can be utilized by Linc Service and TEGG franchises to assist in keeping up-to-date with training requirements meeting OSHA Standards and maintaining current Safety Data Sheets that comply with the new UN Globally Harmonized System of Classification and Labeling of Chemicals (GHS) requirements. It also provides topics to conduct timely staff safety training and meetings.

The materials and information available on the Safety Site will be supplemented and updated on an ongoing basis.

"We want to make sure that everyone comes to work and gets home safely, every single day," said Tod Truettner, ABM Franchising Group's Safety Manager. "It's all about keeping everyone safe by keeping safety on the forefront."

For more information, or if you have any suggestions for safety-related content, contact [Tod Truettner](#), or call 480.489.9016.
