

Q&A: Colby Carlock, 2017 Delta Team of the Year

Colby Carlock, a Technician with Crosby Electric Company, Inc., in Montgomery, Ala., is following in the footsteps of his father – who is an electrician.

“I’ve always enjoyed working with my hands, and I look up to him,” Carlock said.

Carlock has been with Crosby Electric Company, Inc., in Montgomery, Ala., for seven years, and has been a certified TEGG Technician for nearly five years. Carlock, who also holds an Alabama Electrical Master license, also helps teach technicians as part of Crosby Electric Company’s apprenticeship program.

Outside of work, Carlock enjoys spending time with his wife and three children. He is dedicated to his church and also enjoys playing music with his friends.

Carlock’s dedication to honing his craft, teaching others and hard work, along with this teammate, Technician Chris Bohn, helped him become half of TEGG’s Delta Team of the Year during the 2018 Continuing Education Conference in Atlanta, Ga.

Q: *What made you interested in becoming a technician?*

A: “My father is an electrician and I look up to him. He tried to make me go to college, but I couldn’t find any professional career fields that peaked my interest like this career.”

Q: *What do you credit for your success as a team with your partner?*

A: “Chris and I are both willing to learn new maintenance service to fulfill our clients’ needs.”

Q: *How does the TEGG System help you in your day-to-day role?*

A: “TEGG provides a foundation for us to provide importance services to our clients, at their request. TEGG provides the software, support, and training that it takes to run a successful preventive maintenance team.”

Colby Carlock of Crosby Electric Company, Inc., in Montgomery, Ala., won the 2017 TEGG Delta Team of the Year Award with teammate Chris Bohn.

The top of the page features a dark blue curved banner. On the left, the TEGG logo is displayed in white. To the right, a photograph shows the back of an electrical worker in a white shirt, looking towards a background of electrical transmission towers. The TEGG logo is also present in the top right corner of the banner, with the tagline 'An ABM Company' underneath it.

TEGG®

Employee of the Year Q&A

Q: *What's the most rewarding part of your job?*

A: "It's the most rewarding when we find an anomaly in an electrical system that the client could not see without our services. Especially when we find and take care of an anomaly that could have caused an injury or damaged equipment, resulting an expense from downtime."

Q: *What steps do you think technicians could take to better themselves as part of a Delta Team for a TEGG franchise?*

A: "You have to keep a good attitude and be willing to exercise your brain, instead of just your back and other muscles, as many electricians are used to doing."

Q: *What advice would you offer other technicians to also be successful in their companies?*

A: "Be sure to attend all the trainings TEGG provides and take notes. TEGG gives you the keys to success if you are willing to listen."
