Koontz Electric Company's Newest Graduates

Koontz Electric Company, a TEGG franchise since 2005, is dedicated to workforce development.

Koontz Electric Company provides a work-based training program at no cost to their employees. They offer career paths that begin with entry level apprentices that have reached the corporate officers. Koontz Electric currently has 59 students in their Federally certified apprenticeship program.

They are proud to recognize the largest Journeyman class in the sixty-year history of their company. These employees have completed 8,000 hours of on the job training, and successfully passed exams during 576 hours of classroom time over eight semesters, through four years of the apprenticeship program. Which makes them eligible for the State of Arkansas Journeyman Electrician License upon successfully passing the state exam. This achievement is a testament to their dedication and commitment to their profession.

Congratulations to all of the recent graduates, which are listed [here](#). And bravo to Koontz Electric Company for providing valuable training and development for their employees!
